A New Climate for Theology: God, the World, and Global Warming. Climate change promises monumental changes to human and other planetary life in the next generations. Yet government, business, and individuals have been largely in denial of the possibility that global warming may put our species on the road to extinction.

A New Climate for Theology: God, the World, and Global ...

A New Climate for Theology not only traces the distorted notion of unlimited desire that fuels our market system; it also paints an alternative idea of what being human means and what a just and sustainable economy might mean. Convincing, specific, and wise, McFague argues for an alternative economic order and for our relational identity as part of an unfolding universe that expresses divine love and human freedom.
