Our first opening principle is control of the center. The center—particularly, the squares e4, d4, e5, and d5—is the most important area of the chessboard; control of the center allows more mobility for the pieces, as well as easy access to all parts of the board. Attacks in the center also tend to be the most effective.

Understanding the Basics of Chess  
Openings The first lesson you must learn on the road to improving your chess game is to get your priorities straight. Not only should you not be trying to checkmate your opponent in the opening, but you shouldn't even be trying to win material (that is, to gain advantage in the relative value of your pieces).
