## **For today and tomorrow Everything for ... - Robert Bosch GmbH**

Today's diesel fuel injection pumps are under pressure – even more pressure than what was once considered “normal.” Around 15-20 years ago, it was common for fuel injector pumps to process fuel in a system at around 10,000 to 15,000 psi (pounds per square inch). But that's only about half of what engines are expected to do today. Fast ...
