23 Lewis Hine Child Labor Photos That Shocked America

A breaker boy was a young coal mining worker whose job was to detach impurities from coal. They would separate slate, rocks, and other debris from coal by hand. These boys were usually between the ages of 8 to 12, but sometimes were as young as 5 or 6. In 1885, Pennsylvania State law required a coal breaker to be at least 12 years old.

The Work of a Breaker Boy - The Breaker Boys

A breaker boy was a coal-mining worker in the United States and United Kingdom [citation needed] whose job was to separate impurities from coal by hand in a coal breaker. Although breaker boys were primarily children, elderly coal miners who could no longer work in the mines because of age, disease, or accident were also sometimes employed as breaker boys.
