Cartography continued to develop in China throughout its various dynasties, and in 605 CE an early map using a grid system was created by Pei Ju of the Sui Dynasty. In 801 CE, the "Hai Nei Hua Yi Tu" (Map of Both Chinese and Barbarian Peoples Within the [Four] Seas) was created by the Tang Dynasty to show China as well as its Central Asian ...

The History of Cartography - ThoughtCo

Mapping Europe's Borderlandstakes the familiar problems of state and nation building in Eastern Europe and presents them innovatively through the prism of cartography and cartographers. Drawing from cartographic sources in eleven languages, including military, historical-pedagogical, and ethnographic maps, as well as geographic texts and related cartographic literature, Seegel explores the role of maps and mapmakers in the east central European borderlands from the Enlightenment to the ...

Central And Eastern Europe - Pinterest

A great circle divides the Earth into the Eastern and Western Hemispheres. That circle is referenced by two Meridians. The Prime Meridian is the line of longitude at which longitude is defined to be 0°. All countries located to the east of the Prime Meridian (0° longitude) are in the Eastern Hemisphere, while countries west of the Prime Meridian (0° longitude) are in the Western Hemisphere.
