Course Syllabus Counseling Theories and Applications I

In general, the difference between counseling and therapy is merely one of semantics. Both counseling and therapy use discussion between the client and the mental health professional to help the client address emotional, mental, or behavioral issues and solve problems.. However, the terms “counseling” and “therapy” are sometimes used in slightly different ways; counseling is more often ...

3 Grief Counseling Therapy Techniques & Interventions

Each theory is addressed from the perspective of background, hu- man nature, major constructs, applications (which includes a discussion of the goals of counseling and psychotherapy, the process of change, traditional intervention strate- gies, and brief intervention strategies), clients with serious mental health issues, cross- cultural considerations, and evaluation (which evaluates both the supporting research and the limitations of the theory).

Theories and Interventions - American Counseling Association

Some couples counseling techniques take a psychodynamic approach to therapy. The purpose is to bring the unconscious roots of a problem to the surface, whether the problem belongs to one or both partners. This form of couples counseling is most useful when irrational patterns of reacting exist. The belief of a psychodynamic counselor is that ...
