COUNSELING THEORY AND PRACTICE provides a unique, in-depth presentation of all the major theories of counseling and psychotherapy. Author Edward S. Neukrug discusses twelve theories that cover four broad conceptual approaches: psychodynamic, existential-humanistic, cognitive behavioral, and post-modern. The text effectively demonstrates how counseling theories are applied in real counseling settings.

Some currently preferred humanistic counseling therapies include person-centered, existential, emotion-focused, Gestalt and positive psychology. Cognitive: Cognitive counseling theories hold that people experience psychological and emotional difficulties when their thinking is out of sync with reality. When this distorted or "faulty" thinking is applied to problem-solving, the result understandably leads to faulty solutions.
