The goal of most research on group development is to learn why and how small groups change over time. To do this, researchers examine patterns of change and continuity in groups over time. Aspects of a group that might be studied include the quality of the output produced by a group, the type and frequency of its activities, its cohesiveness, the existence of group conflict .

Group development - Wikipedia

Alasdair A. K. White together with his colleague, John Fairhurst, examined Tuckman's development sequence when developing the White-Fairhurst TPR Model. They simplify the sequence and group the Forming-Storming-Norming stages together as the Transforming phase, which they equate with the initial performance level.
