Food Politics by Marion Nestle

Food politics is a term which encompasses not only food policy and legislation, but all aspects of the production, control, regulation, inspection, distribution and consumption of commercially grown, and even sometimes home grown, food. The commercial aspects of food production are affected by ethical, cultural, and health concerns, as well as environmental concerns about farming and agricultural practices and retailing methods. The term also encompasses biofuels, GMO crops and pesticide use, th

Food Politics by Marion Nestle

Food, Politics, and Society offers a historical and sociological survey of how these various ideas and the practices that accompany them have shaped our understanding and organization of the production, processing, preparation, serving, and consumption of food and drink in modern societies. Divided into twelve chapters and drawing on a wide range of historical and empirical illustrations, this book provides a concise, informed, and accessible survey of the interaction between social theory ...

Food, Politics, and Society by Alejandro Colas, Jason ...

The food movement acknowledges that these foods are more expensive and presents itself as an opponent to the flood of cheap, industrial foods with such concepts as, "Pay More, Eat Less." This slogan comes from food movement guru Michael Pollan's book Food Rules, and the idea has become a rallying cry for the food movement: we should all pay more for our food.

Food Fight: The Politics of the Food Industry

Food and politics are connected in ways both great and small, as illustrated in the sidebar "Food Politics in Action." As those examples demonstrate, food is a political issue. Overabundant food and its consequences occur in the context of increasing centralization and globalization of the food industry.

Food Politics: United States | Encyclopedia.com

— Warren Belasco, Editor of Food, Culture and Society, University of Maryland. " The Politics of Food concretely demonstrates that local contexts do, in fact, shape larger settings, even as governments, corporations, social movements, and other institutions define the moral grounds of culture.

The Politics of Food: Lien, Marianne E.: 9781859738535 ...

The political vitriol around food assistance for the neediest and, oddly enough, whitest Americans makes it nearly impossible to subsist in many states. Being a "foodie" often means people are interested in good meals, yet know nothing of the low wages, food instability, and stereotypes that are a part of each and every thing we eat.
