Professional Deck Builder

Build the lower level with conventional construction methods. Screw the cabinetry for the upper levels into wall studs or new studs in the middle of the room. Do not block the scenery between decks with support posts. Except in N scale, some hidden metal support, such as 90 degree brackets, is desirable for added strength.

How to Build a Multilevel Model Railroad | Our Pastimes

Building a Multi-Level Deck. Wherever your deck changes elevation you will need to pay special attention to how the respective levels are supported and attached to one another. It is usually best to frame one level at a time to provide a reference point to build from. Sometimes, you may need to install blocking below the frame between posts of an upper deck to obtain a positive connection between decks and a smooth framing transition to a lower section.
