Because land tenure security is a perception, the use of stories of human experience introduces the reader to an array of issues associated with land tenure, among them controversial approaches to providing land tenure security. In this way the pursuit of land tenure security becomes a captivating story for anyone interested in land related policies, land related studies, and all those who have discovered the importance of protection of the rights to real property by people, all over the world

In Pursuit of Land Tenure Security - CORE

Land tenure. 3.1 Land tenure is the relationship, whether legally or customarily defined, among people, as individuals or groups, with respect to land. (For convenience, "land" is used here to include other natural resources such as water and trees.) Land tenure is an institution, i.e., rules invented by societies to regulate behaviour.

Land tenure in archaeology. In archaeology, traditions of land tenure can be studied according to territoriality and through the ways in which people create and utilize landscape boundaries, both natural and constructed. Less tangible aspects of tenure are harder to qualify, and study of these relies heavily on either the anthropological record (in the case of pre-literate societies) or textual
