Entrustable Professional Activities (EPAs) • Important routine care activities that define a specialty/subspecialty • Observable & measurable outcome of the encounter • Require an integration of competencies within & across domains to perform • "Entrustable" refers to readiness to safely perform the activity without

Entrustable Professional Activities, Competencies and ...

Entrustable Professional Activities (EPAs) EPAs are broad categories of activities that define the essential professional work of a discipline. With regard to residency training, EPAs define the expectations for the education of family physicians. EPAs integrate all of the core competencies, subcompetencies, and their specific milestones.

EPAs, Competencies, Subcompetencies, and Milestones

Milestones and EPAs. In the past decade, pediatric educators and researchers, with support and leadership from the American Board of Pediatrics (ABP), have developed and evaluated the integration of frameworks for assessing trainee readiness to practice medicine without supervision. These frameworks — core competencies along with their milestones and entrustable professional activities (EPAs) — complement each other and fill the assessment gaps that result when either is used alone.

Milestones and EPAs | The American Board of Pediatrics

Choose those milestones that will help faculty assess for competence in a trainee and make a decision regarding entrustment for the chosen activity. While there are not necessarily right or wrong milestones, it remains important to make decisions based upon the knowledge, skills, and attitudes required of physicians to meet the outcomes expected of the future health care system.

Exploring the ACGME Core Competencies (Part 1 of 7) - NEJM ...

Assessment of individual competencies through milestones can be challenging. While competencies describe characteristics of the person, the entrustable professional activities (EPAs) concept refers to work-related activities. EPAs would not replace the milestones but would be linked to them, integrating these frameworks.

Integration of Entrustable Professional Activities with ...

Two frameworks for assessment in CBME have been promoted: (1) entrustable professional activities (EPAs) and (2) milestones that define a developmental trajectory for individual competencies. EPAs are observable and measureable units of work that can be mapped to competencies and milestones critical to performing them safely and effectively.

Building a Framework of Entrustable Professional ...

This collaborative effort resulted in the creation of 5 entrustable professional activities (EPAs) and the development of a milestone-based assessment tool. We describe the development of the EPAs and milestone-based assessments and our experience with the implementation of these tools, and provide recommendations for other programs.
