KENWOOD TM-V7a JUMPERS To make the expanded receive and transmit modifications, it is only necessary to remove the transceiver bottom cover, but depending on the suitability of tools you have available for the job, if your soldering iron and tweezers are not small, you may have to remove the top cover and the front of the radio also.

### Modifications for the Kenwood TM-V7A - NA5B

My 850S came out of the box running low power (50 - 75w PEP), so I called the local ham radio dealer inquiring about service manual availability. Well they had them in stock, but at a price of \$50.00! Unbelievable! Kenwood wants fifty dollars for (in the continuing Kenwood tradition) a terribly organized, incomplete, and horrible reading manual!!!

### Modifications for the Kenwood TS-850 - Radio mods

Here you will find modifications of many types of HAM radios, microphones, power supplies, modems etc. You can find how to modify a radio to receive and transmit out of range, you can find how to modify a radio to use high speed packet modems, and how to modify the radio/modem to get better performance.

### KENWOOD TL-922A Repair and Modification

Kenwood TL-922 Revival Modification Kit. T he Kenwood TL-922/TL-922A is a relatively low-cost HF linear amplifier with outstanding ergonomics. These amplifiers were constructed with high-quality components, in a form-factor that is attractive, functional, and unobtrusive. Unfortunately, that original design (now 30+ years old) included a number of design shortcomings, some of which were detrimental to the amplifier's operation and longevity.

Update: Dec 2001: The Kenwood manual for the newer TH-F6 radio shows the pinout for the Plugs (page 46). Through Dec 17, 2001, this web page showed the Ring and Shield of the 3.5mm plug both shorted together, but I have updated the plug pinout to match the Kenwood documentation, and I confirmed that it does work as shown, without the connection ...
