by F. Daviter ...

Reviews. 'This book represents a major contribution to our understanding of public policy in the European Union. Daviter makes a persuasive case for the 'framing approach' to EU studies and beyond, showing the framing effects on policy choice and how framing affects the processing of interests and ideas. The case studies are

that the policy framing perspective has particular relevance for the study of the EU. A review of recent studies of EU policy framing discusses how the framing of issues on the EU agenda structures political conflict and competition at the European level, and it shows how this literature provides a unique research ...
