Social Media Analytics Tools - Price Comparison & Reviews ...

A social media analytics model. To counter this deficiency, I developed the 4-factor model to assess overall social media performance. The 4-factor model looks like this: Sales = amplification X sentiment X marketing intensity X close rate. Now, I'm the first to say this model isn't perfect. But, it's a good starting point for further discussion and development. One major failure of the model is it only explains 1 element important for social media analytics — performance.
