told to run loose and think lean in order to fail fast and succeed sooner. But in a world obsessed with the new, where cool added features often trump actual customer needs, it's the consumer who suffers. In our quest to be more agile, we end up creating products that underwhelm. So how does a company like Nest, creator of the mundane ...

"Well designed", in this case, looks like an adverb adjective combination to me similar to "carefully designed". Or if we say the car was designed well, the "well" is modifying design not the car. Adverbs combined with adjectives before a noun typically do not require a hyphen so why does it in this case?
